

Concord Children's Clinic
1040 Vinehaven Drive, Concord, NC 28025

NEW PATIENT/ FIRST TIME VISIT AT OUR OFFICE

All the forms in the new patient package need to be completed and signed before the child's first visit. It is advisable to arrive at least 15 minutes before the appointment time.

Please bring your insurance card since we will need it to file the claims. You will be considered a self pay patient if you do not have valid insurance information at time of service. Payment in full will be expected at the time of service.

If you are transferring your child from another clinic please make sure that you sign the medical record release form either at our clinic or at your previous clinic so that we can get the child's/children's medical records before they come in for their first visit.

It is very important for our physicians to review the child's medical history and shot records before their first visit so that we are aware of the child's medical background and are able to focus on the child's needs.

Child's immunization records are very important. We will need a copy of the immunizations before we can schedule a well check appointment for the child.

If you have any questions or concerns please feel free to contact us. We are looking forward to seeing you at our practice.
