

**Concord Children's Clinic**  
1040 Vinehaven Drive, Concord, NC 28025

Thank you for being a part of Concord Children's Clinic. Your child is scheduled for a well check visit on ..... at .....

What is a well exam /preventive care?

Well exams usually involve immunizations and other preventive health services. Keeping your child (ren) up to date on these checkups helps them to overcome bumps and bruises of childhood and lay groundwork for a healthy and happy adulthood. Most of the health plans cover for these visits.

What is not part of the well exam/preventive care?

Any current or new health conditions are not part of the preventive care. Your provider can diagnose or treat your child (ren)'s new or current health problem during the office visit. Please inform your provider if you want that done. Please keep in mind that you will be charged for extra office visit. Please call your insurance to learn more about your coverage.

It would be advisable to keep your child (ren)'s well check visit apart from the new or current health conditions. We will be happy to schedule a separate office visit for you to discuss with your child (ren)'s provider. Please keep in mind that you will be responsible for all charges that are not covered under your health plan.

Thank you for letting us take care of your child (ren).

By signing here I acknowledge that I have reviewed and understand the above information.
